Resume Analyser

AI Project

The Functionality of the Project

1. Main goal of this project is to match between candidate resume and job description.

2. It takes two pdf,one is requirements pdf and other is pdf user pdf.

3. And show the results.

What we learn from this project

1.pathlib : This module offers classes representing filesystem paths with semantics appropriate for different operating systems

2.pdfminer : This module is used to extract out texts from requirement file and resume file

3. nltk : It used to extract skills data from resume.

4.cosine similarity: it is used for matching.

5.streamlit : it is used for design UI.
